

PATCH 51.6

Scheduled to be released to the field, Sunday, December 07, 2003 at 9:00 A.M. CST

Database changes only.

REPAIRS

PROBLEM REPORT NUMBER	REPAIR	Initiated By	Critical Function
TD 8916	Summary: Interface pay sequence code behaves incorrectly. Resolution: Reworked inbound pay package sequence handling and changed sort order used to determine proper outbound pay package for resend.	LMMS	Payroll Interface
TD 9419	Summary: Trigger error on Appointments to Critical Acquisition Position. Clicked Details - Reads No data Found. Date Tenure agreement Ends is under Global Information and Acquisition Information. Resolution: The trigger error was a result of data contained in the record in the Acquisition Assignment Review SIT. This ticket was corrected as part of the fix contained in TD9440 (see comments above for 9440).	Army	Appointments
TD 9420	Summary: Created RPA Salary Change for an employee, NOAC 703 on Acquisition Demo employee going from non-critical Acquisition position to critical acquisition demo position. Received the following error Updating HR: APP-FND-01030 VALUE &VALUE is longer than its maximum length of &LENGTH characters. Resolution: This error occurred by data in the Acquisition Assignment Review SIT when there were null values in the SIT. Process was revised to insert a new row into Acquisition Assignment Review SIT when personnel action is completed. This ticket was fixed as part of the fix for TD9440 (see comments above for TD9440).	Army	Pay
TD 9421	Summary: Incorrect Alert given when Promoting employee to critical position. Resolution: Changed an alert that allowed the RPA to update HR to a reject message that stopped the RPA processing.	Army	Promotions

TD 9425	<p>Summary: Invalid Update Allowed on Acquisition Basic Data EIT Assignment Review Fields.</p> <p>Resolution: Clears three problems. (1) When processing an update to Acquisition Basic Data EIT, was able to input a value in the Assignment Review Action Type when the employee is not in a critical acquisition position. The AT & L SOW requested a business rule to prevent updating this field and the Date Assignment Review Completed when the Critical Position indicator in the employee's position is not equal to 1, 2, or 5. (2) The SOW also requested that there be a business rule applied that would prevent updating the Assignment Review Action Type to a value of 1, 2, or 5 when no RPA is being processed. These values are only appropriate with a position move. Should only be able to input a value of 3 or 4 when no RPA is being processed. However, input a value of 1 and it took. (3) In addition, was able to input a value in the Assignment Review Action Type without having a value in the Date Assignment Review Completed field. The SOW requested a business rule to prevent the user from inputting a value in one of these fields without inputting a value in the other. The fix for this ticket also includes a reject that prevents input of 1,2, or 5 without processing a RPA. Allows user input when value is 3 or 4 without an RPA. Provides an error message that states input is required to Assignment Review Action Type when moving an employee into or out of a critical acquisition position (value 1,2 or 5). When action to update HR is completed creates a new SIT entry for Acquisition Assignment Review.</p>	CPMS	Other
TD 9429	<p>Summary: 1106 Career Category is systematically updated with value of "E".</p> <p>Resolution: Discovered a new problem in DT when the fix for PR 9426 went in. It appears that when you blank out the career category for an 1106 position at time of validation the system automatically replaced the null value in career category with the value of "E". This only happened for AF and DD records. Was able to blank out Career Category for DD, RH, NGAR and NV positions. Found auto-population logic tied to Air Force and DD records when value of occupation series was equal to 1106. Removed auto-population logic so that user can input correct code for position.</p>	CPMS	Position

TD 9437	<p>Summary: No direct update to career field if the position is newly assignment ACQ.</p> <p>Resolution: The problem existed when you newly designate a position to be Acquisition. If the position was not Acquisition before, no data in the Career Category and you add a Career Category the data is not flowing to the Career Field and no dates are being update to the in the person record. It will update if you make a change to the Career Category that already exist. The workaround is to go to the person EIT and make the update from the person record. When updating the position record provided alert indicating that employee record had been updated with corresponding value in Career Field and established date start certification requirements as today's date and added 18 months to date certification due. Alert also instructed that if there was need to change date certification due that it would have to be entered manually. Validated the position with Update. Viewed employee and found that the Career Field had been updated to C and that the date had been established.</p>	CPMS	Position
TD 9438	<p>Summary: Bad Edit received when updating Months SPO Experience for Acquisition Employees.</p> <p>Resolution: Can now update months SPO experience on any employee who is currently in an acquisition position. However, the monthly counter that will continue to add months to the Months SPO Experience. It will check to see if the position is a SPO position before adding additional months. Changed the edit to look to see if Career Category is not null to determine if person is in an acquisition position. If Career Category is not null, allow Months of SPO experience and Date SPO Experience Updated to be manually input by the user. For the automatic counter, continue to add Months SPO Experience only if the person is currently in a SPO position (i.e. System Program Office field in the position = Y). If System Program Office field is not = "y", do not add a month during the automatic update when EOM suspense routines are run.. Also, do not update Months SPO experience if the value of Months SPO experience is null. Was able to update months SPO experience successfully for an employee with Yes in her position/Ex Info/Acquisition Program Information/ Systems Program</p>	CPMS	Other

TD 9440	<p>Summary: No Edit requiring update to Assignment Review Action Type in the RPA Extra Info nor is any data being updated to the ACQ-Assignment Review SIT when a person is moved out of a Critical Acquisition Position.</p> <p>Resolution: This problem ticket addresses most of the problems with RPA processing 1) the edit that requires the date tenure agreement ends to be entered when an employee is being moved into a critical position, 2) the edit that requires the review action type and date assignment review completed to be entered when an employee is being moved out of a critical position, 3) the alert messages that go along with the critical position moves (also in TD9443/PR15305), 3) the VALUE TOO LONG error (TD9420), 4) the updating of Qualification Basis for Person Extra Information Types ACQ CORPS, 1102 Series and Contracting Officer, 5) the updating of date tenure agreement ends in the Person Extra Information Type ACQ BASIC, 6) the updating of most of the segments in the Special Information Type "ACQ - Assignment Review" when an employee is moved out of a critical position (TD9419 trigger error).</p>	CPMS	SF 52 Process
Remedy 13644	<p>Summary: Performance problems in Cancellation/Correction Query.</p> <p>Resolution: 1. A Find window can now be accessed either by clicking "F11" or using the flashlight icon. 2. The user no longer has to click in the Details block before seeing any RPA/NPA details. Completed actions, if any, automatically will appear in Details block on the initial query.</p> <p>3. Oracle delivered performance enhancement to Cancellation and Correction Form data retrieval. TAR 3259592.995</p>	Oracle	Cancellations/ Corrections
Remedy 13803	<p>Summary: Receiving error message when updating the Post Allowance entries.</p> <p>Resolution: The error was received when the procedure obtained a Null validation start date when first entering the element screen. Modified the procedure to obtain the Date track date when the element was changed. Added code to all elements to solve the error message.</p>	CPMS	Benefits and Entitlements

Remedy 13831	<p>Summary: Unable to correct a SSN of an employee.</p> <p>Resolution: Corrected code where employee records were not being updated when the date of birth or SSN was changed. This Remedy was fixed with Family Pack F, but testing could not be successful until promotion of Remedy 14023. TAR 3474430.995 has been logged and Bug Number 3260929 has been created.</p>	DLA	Corrections
Remedy 14023	<p>Summary: Correction to DOB not updating in HR.</p> <p>Resolution: Corrected code where employee records were not being updated when the date of birth or SSN was changed. TAR 3474430.995 has been logged and Bug Number 3260929 has been created.</p>	DFAS	Corrections
Remedy 14069	<p>Summary: Employee record did not update and value did not print on report "RETNT".</p> <p>Resolution: Removed condition that prevented update of Date Retired Package Received from Payroll if incoming transaction dates "Dt Ret Pkg Sent" and "Dt Ret Pkg Rcvd" where null.</p>	NGB	Pay Reverse/PAD
Remedy 14081	<p>Summary: ACQ Demo Mass process NPA doesn't print Duty Station clear text.</p> <p>Resolution: Modified the NPA to print the Duty Station clear text. This modification was done when SCR 03-3235-DoD was completed in P51.3.</p>	Army	NPA/50
Remedy 14091	<p>Summary: Users cannot remove end-dates from positions.</p> <p>Resolution: This script will run at Region 11. This script will remove the end dates from those encumbered positions that are currently end dated.</p>	Army	Position
Remedy 14143	<p>Summary: Cannot change Supervisory Status on encumbered position.</p> <p>Resolution: Modified the code to be able to change supervisory status for encumbered position.</p>	Army	Position
Remedy 14161	<p>Summary: Cannot Temporarily Promote an employee on Grade Retention.</p> <p>Resolution: Created a script to add "US FED Retained Grade Temporary Promotion" to the responsibilities CIVDOD PERSONNELIST, CIVDOD PERSONNELIST OTHER, CIVDOD Reconstruct History, CIVDOD STAFFER.</p>	DLA	Promotions

Remedy 14305	<p>Summary: Date Temporary Eligibility FEHB created on an Intermittent.</p> <p>Resolution: Modified the procedure to not populate Date Temporary Eligibility FEHB for a non-tenured, Intermittent worker with a FICA Retirement Plan.</p>	DeCA	Benefits and Entitlements
Remedy 14329	<p>Summary: Report RNG01 is not producing unique Report to NG.</p> <p>Resolution: Problem of report not running was fixed in PR14664 in patch 51.1.1. Main query for this report was modified to ensure that the correct data is being populated in report.</p>	NGB	Reports
Remedy 14427	<p>Summary: Fix for CRT 03-7254-ARM is incomplete.</p> <p>Resolution: A script has been created that will update a specific employee Record at Region11. (It is a record that was missed during CRT03-7254-ARM). This script also changes the Assignment Status Type from Temp NTE to Active Assignment.</p>	Army	Other
Remedy 14435	<p>Summary: Receive Error APP-PAY-52299 or Error "APP-PAY-52292: Future dated assignment records exists for this employee.</p> <p>Resolution: Updated the procedure with regards to the US Payroll product being "Installed" on your system for the Legislation Installations status. This was causing the error conditions. Modified the Status from "Installed" to "Shared" to clear the errors</p>	DoDEA	Pay
Remedy 14443	<p>Summary: Updated RPA Actions still show as Open in Civilian Inbox.</p> <p>Resolution: Created a script to close all the Open notifications in the Work Flow after Update HR is completed.</p>	Navy	RPA/52
Remedy 14488	<p>Summary: In the PARIS output file the value for Lab Demo positions grade or level displaying Numerals instead of Roman values.</p> <p>Resolution: Added function to check for Lab Demo position and return Roman values for it instead of numerals.</p>	AF	External Interfaces
Remedy 14514	<p>Summary: Trigger Error FRM-40735 on NOA 702 Action.</p> <p>Resolution: The problem was caused by two Non Pay Day entries with the same "End-Date". Created a script to delete entry with Effective End Date of 31-Dec-02</p>	NGB	Promotions

Remedy 14559	<p>Summary: PAY500 flowing incorrect work schedule on S1F transaction.</p> <p>Resolution: Added/amended code to flow correct work schedule, part-time indicator and step/rate based on effective date of action.</p> <p>Note: Partial Release. A problem has been noted whereas after processing a Conversion to Career Conditional Appointment and the effective date is prior to other actions (NOA Codes 893 and 781), data should flow to payroll (Pay500) as it was on the effective date. However, the Part-time Indicator (record position 340) flowed a "1" instead of null and the SCD TSP (record position 271-281) did not flow a value. This condition will be corrected in Patch 51.9.</p>	DeCA	Pay
Remedy 14631	<p>Summary: SF-52 Tracking Report not Reflecting all RPA Actions.</p> <p>Resolution: Modified the Report and procedure to bring in all of the values and not to error out the report when user is using the organization as input parameter. Also tied to Remedy 14934.</p>	DoDEA	Reports
Remedy 14723	<p>Summary: Receive error on PRD/RNO when trying to Update of 702 Promotion.</p> <p>Resolution: Removed unnecessary calls to this procedure to prevent the PRD/RNO error when processing 702 Promotions..</p>	Army	Promotions
Remedy 14760	<p>Summary: Receiving a Mass Realignment Secure user POA error.</p> <p>Resolution: The POA LOV does not return any values for Secure User. Modified the LOV to get all POAs for secure user.</p>	DLA	Position
Remedy 14821	<p>Summary: Receive error while navigating in Menu Exclusion section for CIVDOD Personnelist Responsibility. (In Responsibility Form, Sys Admin Responsibility)</p> <p>Resolution: Deleted the Invalid Id's in the responsibility functions table that do not exist in the form functions table.</p>	CPMS	Roles and Responsibilities
Remedy 14855	<p>Summary: Cannot Cancel RPA, Personnel Security Clearance problem.</p> <p>Resolution: A script has been created that will update the Analysis Criteria Id in history with correct one from permanent storage</p>	IBB	Cancellations
Remedy 14859	<p>Summary: Error CPDF Edit 570.19.2 on HR update of NOA 702 (XG/XH Pay Plan).</p> <p>Resolution: Bypassed the check for CPDF Edits 570.19.2 and 650.57.3 pending the fix for Oracle Bug Number 3019926.</p>	Army	CPDF Edit

Remedy 14862	Summary: Report is erring out in all regions. Resolution: Created a migration script to reestablish the Token Names as they are missing in all regions	Navy	Reports
Remedy 14868	Summary: RTD (NOA 292) is not generating after Suspension (NOA 450) put in with a NTE Date. Resolution: Modified the code used to retrieve suspension data stored in SIT "US Fed Conduct Perf" for PAY500 package and Suspense to correct the problem of not generating NOA 292 after processing a suspension.	DeCA	Suspense
Remedy 14882	Summary: Unable to locate original action after deleting cancellation action. Resolution: A script has been created to recreate RPA Actions to show up again in Cancellation/Correction screen.	AF	Cancellations
Remedy 14926	Summary: Army CType not changing when employee promoted (AD to WS). Resolution: Modified code to change CTypes when employees move into a new pay plan. Modified to assign CType 130 to all UIC W1J410 and W4CMAA and pop up message for NOA 1##.	CPMS	Other
Remedy 14934	Summary: SF52 Tracking Report Errors when Organization parameter is used. Resolution: Changes were made in the Report and procedure to bring all the values and not to error out when using the organization as input parameter. Also tied to Remedy 14934.	Navy	Reports
Remedy 14963	Summary: Cannot update HR NOA 170 get error as a secure user. Resolution: Corrected the profile option name HR_USER_TYPE inserting as 'PER' for Secure View Responsibilities.	Navy	Appointments
Remedy 14977	Summary: NOA 460 (LWOP NTE) not properly populating "Type of Employment". Resolution: Re-enabled code to auto-populate Type of Employment to an "F" for NOA actions 430, 452, and 460.	CPMS	Other
Remedy 14983	Summary: REG01 CIVDOD Personnelist does not have Civilian Inbox. Resolution: Created script to add Civilian Inbox to all Responsibilities.	Oracle	In Box
Remedy 14997	Summary: Received Error APP-PAY-52299 or Error "APP-PAY-52292: Future dated assignment records exist for this employee." Resolution: Updated the procedure with regards to the US Payroll product being "Installed" on your system for the Legislation Installations status. This was causing the error conditions. Corrected the Status from "Installed" to "Shared" to clear the errors.	DoDEA	Pay

Remedy 14999	Summary: Received error APP-GHR-38237 when Updating HR NOA 002/280. Resolution: Added NVL to the Work schedule logic. HR NOA 002/280 will now process without error.	DoDEA	Corrections
Remedy 15052	Summary: Mass Actions has two Mass Award menu items displayed. Resolution: Under REG03 there are three duplication problems (Mass Awards, Mass Position Changes, and Mass time off awards). Created a script to delete the duplicate menus.	AF	Mass Awards
Remedy 15059	Summary: Database constraint violation Error (GHR_PA_REMARKS_FK1) on NOA 001/721,702. Resolution: Modified the SF52 Cancellation/Correction package to delete the remarks being creating internally in the Cancellation process. Modified the cursors in the packages to create the remarks only if the Pseudo SSAN is available.	DoDEA	Cancellations
Remedy 15070	Summary: Procedure not flowing some information to PAY500 that causes a reject condition at DFAS. Resolution: Modified the procedure to retrieve person data for 'GBB' update for the payroll 500 Transaction. Also, a script was created to regenerate Pay 500 NOA 'GBB' beginning Sep 23 to run date for REG11 only.	Army	Pay Rejects
Remedy 15078	Summary: Missing Certificates and Licenses DDF. Resolution: Generated scripts to migrate missing values for Certifications and Licenses and to setup restrictions for custom version of form.	Army	Training
Remedy 15084	Summary: End Employment under Fast Path errors out No navigation'. Resolution: Task flow exists on Pristine but missing everywhere else. Added the new task flow and promoting.	CPMS	System Fundamentals
Remedy 15121	Summary: Security List Maintenance produces unrecognizable errors (LISTGEN). Resolution: Modified Error message to print erred Security profile name in the Process Log.	AF	System Fundamentals
Remedy 15126	Summary: Cannot process a 499 NOA to correct SSN (DDF not included for PA Extra Info). Resolution: Made "SSAN Hold Area for New/Old/499" DDF available to US Fed HR Manager responsibility.	DoDEA	Other

Remedy 15128	Summary: TSP Termination Transactions from IVRS failed. Resolution: Initialized the Entry Id variable in the thrift savings plan to avoid processing the same record twice. Dates in YYMMDD Format have been changed to RRRMMDD.	Army	Benefits and Entitlements
Remedy 15136	Summary: Receiving incorrect clear text for NOA 353. Resolution: Modified description of NOA 353 from 'Termination-US' to 'Separation-US'.	NGB	Separations
Remedy 15144	Summary: Report Prob1 printing same name more than once. Resolution: Added new formula column to the report to populate the Full Name correctly. Fixed the Character variable length (in package) , Date formatting problem and the query problem.	CPMS	Reports
Remedy 15248	Summary: Receiving error message APP-FND-00716 upon Update HR of NOA 790. Resolution: Script cleans all duplicate records for SIT "Completed Training" thereby correcting the APP-FND-00716 error.	AF	Other
Remedy 15276	Summary: APP-FND-00716 Error on NOAC 352 Separation. Resolution: Script cleans all duplicate records for SIT "Completed Training" thereby fixing APP-FND-00716 error.	NGB Tech	Separations
Remedy 15277	Summary: NOA 740 Position Change. Update HR Receive error at the bottom of the screen, "FRM-40734: Internal Error. PL/SQL error occurred." Resolution: Took out the Blank Spaces in the Where Clause of the procedure that was causing the Internal Error.	DLA	RPA/52
Remedy 15280	Summary: AT&L conversion for pay pool number was incomplete and resulted in several acquisition records being missed on the initial conversion (conversion 8 in patch 51.3). Resolution: Correction includes modification of the original conversion script to allow for pay pool number insertion when sequence number from position and sequence number provided in the update file match.	LMMS	Other

Remedy 15292	<p>Summary: Processed a reassignment from a position that was designated as an acquisition position to a position that is not designated as acquisition. There should have been an alert telling me that the Acquisition certification start and due dates were being spaced out because the employee was being moved to a non-acquisition position. Did not get this alert and the dates were not spaced out of the records. All of the fields on the Acquisition Basic EIT are still there as though none of this data was moved to history.</p> <p>Resolution: This PR was corrected as part of the total fix identified in TD9440. Action now processes correctly with Alert notice that dates have been blanked out and a new entry is written to the Acquisition Assignment Review SIT based on input from the RPA.</p>	AF	Other
Remedy 15302	<p>Summary: Edit for updating Date Tenure Agreement Ends is not updating date values in the Person Acquisition Basic Data EIT.</p> <p>Resolution: The Date Tenure Agreement Ends is now a required input when processing RPA actions that move employees into an Acquisition Critical Positions. Date values are input through the PA Extra Information and updated to the Person Acquisition Basic Data EIT when update to HR is completed.</p>	CPMS	RPA/52

SCR 02-414-NVY	<p>Summary: Changed the custom mass process listed below to do the following:</p> <p>a) Display records that have been processed. The customer can view the processed records by pressing the 'Processed Records' button on the appropriate mass form. The button will be grayed out if the mass process has not been executed yet. If there are no processed records available, then a message will come on the screen to indicate this. For any mass processes that were executed before this promotion, there will be no processed records available. b) Delete preview records if the process has not been executed yet. The customer can delete Preview by pressing the 'Delete Preview' button on the appropriate mass form. The button will be grayed out if the mass process has been executed. The customer will be given a chance to cancel the delete if necessary. After the delete, a message will return with the number of records deleted. This will not delete the process itself, just the preview records. c) Delete the mass process and any preview records associated with it. The customer can Delete the mass process by select the delete option in the tool bar at the top of the form (red X). The customer will be given a chance to cancel the delete if necessary. After the delete, a message will return with the name of the process that was deleted. This will delete the process and any preview records associated with the process. If the process has been processed, submitted, or has errors from an execution, then the customer will not be able to delete the process - a message will appear indicating why. Custom MASS PROCESSES Changes were made to: Mass Appraisals, Mass Awards, Mass Realignment, Mass Extensions, Mass Non Pay Duty Status, Mass Position Change, Mass Return To Duty, Mass Time Off Award, LN Mass Appraisals, LN Mass Awards, LN Mass Realignment and LN Mass Salary.</p>	Navy	Mass Processes
----------------	---	------	----------------

SCR 02-732-DoD	<p>Summary: The following modifications have been made to the Monthly AOS Reports:</p> <ul style="list-style-type: none"> a. Created a new table CIVDOD_AOS_REPORT1 to store the Separation Date and Date Package Forwarded to OPM for different agencies. b. Provided the capability to store the Begin Date and End Date in Personnel and Payroll for different agencies for the following Tables: <ul style="list-style-type: none"> CIVDOD_AOS_REPORT2 CIVDOD_AOS_REPORT3 CIVDOD_AOS_REPORT4 CIVDOD_AOS_REPORT5. c. Created a new table CIVDOD_AOS_REPORT6 to store payroll and POI information per agency. d. Created an extract script for New Lookup Type and Value Set for Payroll Office Number. e. Created an extract script for new DDF CIVDOD_OPM_SEPARATE_RETIRE - OPM Separation and Retirement Data with two data fields 'OPM Register Number' and 'Date Recd at OPM from Payroll'. f. Created new extract scripts for the new concurrent program <ul style="list-style-type: none"> 'Aging of Separations - Report 1', 'Aging of Separations - Report 2', 'Aging of Separations - Report 3', 'Aging of Separations - Report 4', 'Aging of Separations - Report 5', 'Aging of Separations - Report 6'. g. Modified code for: <ul style="list-style-type: none"> Aging of Separation report 1 - claims related to separation, amount of time from separation until OPM received. Aging of Separation report 2 - claims related to separation, average days spent in personnel and payroll. Aging of Separation report 3 - claims related to separation, average days spent in personnel, payroll, mail and no. of claims. Aging of Separation report 4 - claims related to separation displayed by payroll office and/or agency. Aging of Separation report 5 - claims related to separation, ten fastest personnel offices. Aging of Separation report 6 - claims related to separation displayed by personnel office id 	CPMS	Reports
----------------	--	------	---------

	<p>Summary: Full Modification to DCPDS-JPAS Interface (Original SCR # ER-DOD-002). 1. CSU/EUL. Ensured current security clearance data is being refreshed from 11i DCPDS into the CSU and EUL. Added the new JPAS codes and clear text values for Eligibility of Clearance, Security Investigation Basis, and Investigative Agency (see Attachments A, B and C) to the CSU and EUL. 2. Process Log. Expanded and enhanced the Process Log (Federal) to include the JPAS update into HR. 3. Dual-Appointments and Dual-Status records. Update JPAS security data in DCPDS on ALL active DoD APPR, TECH, NAF and LN records, including Employee, Ex-Employee, Applicant and Ex-Applicant records. 4. Report Changes. Changed the report/request name in Processes and Reports, Submit Processes and Reports from "Security Clearance Change Report" to "JPAS Tickler Report". Changed the report title at the top of the report itself from "Tickler Report" to "JPAS Tickler Report". 5. LN-specific Security Investigation Basis data. In the LN Security Information DDF forms, changed the name of the existing Security Investigation Basis field to JPAS Security Investigation Basis. Also, changed the name of the existing Date Security Investigation Completed field to JPAS Date Security Investigation Completed. Created an additional Information Type/Context Name associated with the LN Security Information DDF. Created a second additional Information Type/Context Name associated with the LN Security Information DDF to store LN-specific Date Security Investigation Completed. Created a third additional Information Type/Context Name associated with the LN Security Information DDF to store free text dealing with LN-specific Security Investigation Data.</p>		
SCR 03-8391-DoD		CPMS	Other
SCR 03-8455-DoD	<p>Summary: To keep track of the executive level allocations, two new DDFs have been added: (1) Position < Extra Info Type < Multiple Agency Information named 'Executive Allocation Source' and (2) Person < Extra Info < Other Person Info named "Dt Initial Appt to ES/EX/SL/ST". More information is available in an attachment provided with this readme.</p>	CPMS	Position

CRT 03-9145-DoD	Summary: Remove NTE dates on 3 records. This script performs additional cleanup at Region 23. One Record was not corrected with original script due to incorrect effective date.	DeCA	Other
CRT 03-9256-AFX	Summary: Update Report 664 - Notice of Supervisor/Manager Probation Completion. Changed the clear text on the report as requested.	AF	Reports
CRT 03-9312-DoD	Summary: Addition of Clear text of TO block of RNG04 Report for NGAR Technician. Changed the 'TO' field to print different data when the agency is NGAR and the record type is TECH.	NGB	Reports
CRT 03-9411-DoD	Summary: Created a script that will update data (deletes an incorrect RPA) for a specific employee to allow for further actions to be accomplished.	DoDEA	Other
CRT 03-9439-NVY	Summary: CPMS - Position NTE Date. A script has been created that adds two columns - 'Position Protected Flag' and 'Position NTE Date' to 'Additional Position Details' DDF and defaults 'Position Protected Flag' to 'N' for new positions. Note: This is a partial fix. A spreadsheet of positions with an elimination date in the future is pending from CPMS.	CPMS	Position
CRT 03-9504-AFX	Summary: Delete 355 NPA From Record. This script performs additional cleanup at Region 03. One record was not corrected with the original script.	AF	Other
CRT 03-9674-DoD	Summary: Some Oracle Federal RPA Extra Information DDF to be hidden for All Responsibilities. Disabled some of the US Fed Benefit PAR DDF so they will not appear in Appointments, Conversion to Appointments, Reassignments, etc. Disabled Retention Allowance, Staffing Differential, Supervisory Differential fields from 'Pay Appointment Information' and 'Pay Information for 5/7/9' DDF to prevent the user from inputting any data.	CPMS	Other
CRT 03-9741-AFX	Summary: A script has been created that will Delete an erroneous NOA 292 RPA record and attempted cancellations and corrections to the 292 at Region 3 for an employee.	AF	Other
CRT 03-9800-NGB	Summary: Request for LWOP NTE dates to be cleared. A script has been created that will remove the LWOP Start and NTE Date from records with Duty Status 20 or 00 at NGB.	NGB	Other

CRT 03-9831-NVY	Summary: Add BIN to NV Unique Position DDF. A script has been created that will add one column 'Navy Billet ID Number (BIN)' to 'CIVDOD_POSITION_NAVY' - Position Extra Info DDF.	Navy	Position
CRT 03-9897-DoD	Summary: Missing Appraisal for QSI. Added edit to check for an appraisal within 12 months of the effective date in the employees record to process QSI for APPR and TECH.	CPMS	Appraisals
CRT 03-9958-DoD	Summary: Request for Report RTAL2 to be produced for National Guard Technicians on retention allowance due review. Modified procedure to include TECH positions to generate Retention Allowance Report (RTAL2).	NGB	Reports
CRT-03-9977-DoD	Summary: A script was created to delete a Termination RPA, update NTE dates, reset assignment status and clean up history entries for an employee.	NGB	Other
CRT 03-10018-ARM	Summary: Correct Army Employee Record. The Army employee has been restored as Active.	Army	Other
No PR Number	Summary: A Correction script has been created to identify and change Organization Names that are longer than 50 characters on various regions.	LMMS	Organization
NAF Only			
Remedy 14294	Summary: NAF-28 Report printing with Pay Plan and Grade. Resolution: The field formerly displayed the full five characters of data from the Per Grades Table, Name column (e.g. GS.11). Now the report only displays the last 2 characters of the Name column (grade only).	AF NAF	Reports
Remedy 14397	Summary: NAF-17 did not print with appointment action. Resolution: Modified the base views of the report (NAF-17). Corrected any date formatting and query problems found.	AF NAF	Reports
Remedy 14398	Summary: NAF unable to print block 27 on NPA using a secure view (Report 2545). Resolution: Modified the report to print Name & title of the approving Official in Block 27 of Form 2545.	AF NAF	Reports
Remedy 14720	Summary: Routing RPA will get an error message "No Pay Period Found". Resolution: Modified the code in the NAF Time Off Award procedure to prevent the error condition.	Army and AF NAF	Appointments

Remedy 14931	Summary: Missing information on Correction NPA for blocks 18 and 23. Resolution: Modified the procedure to correctly update position id, position title, and position number into the PA Request Table for a correction. Also modified the post SF52 process to update the duty station information into the PA Request Table after successful processing of a correction.	AF NAF	Corrections
Remedy 14942	Summary: Unable to process reassignment with guaranteed workweek of 40 Hrs. Resolution: Modified the edit to remove the error when processing a reassignment on RFT employee with guaranteed workweek of 40 hours.	AF NAF	Reassignments
Remedy 15006	Summary: NAF Mass Position Change A096 (data in Preview - POA and Duty Station). Resolution: Corrects where the Target Duty Station changed in the preview screen and was not saving.	Army NAF	Mass Realignments
SCR 02-2867-DoD	Summary: Developed New report NAF-19 for Air Force NAF Life Insurance. Modified the clear text to reflect Health Insurance and revised the NAF-02 report. Created new concurrent program for the new report. Added the new report (NAF-19) to request groups specified in the SCR.	AF NAF	Reports
LN Only			
Remedy 13956	Summary: Print problems with Japan USFJ Form 11EJ. Resolution: Added code to auto-populate the language allowance supplemental pay field and modified the report to correct problems. Also updated the form to only show desired columns in a certain order. Created a script to delete attribute13 from DDF 'CIVDOD_PAR_LN_PAY_HRS_INFO'. Corrected the USFJ 11EJ report, Navy Serviced Records, Block 8, Line 1/To where the Competitive Level was not printing and Army Serviced Records, Block 11/To and From where the Installation was not printing. Added code to auto-populate the From Type of Employment when the country is Japan for DDF 'CIVDOD_PAR_LN_UNIQUE'.	LN Japan	NPA/50
Remedy 14898	Summary: Remarks not printing on NPA actions from LN Italy Mass Awards Process. Resolution: Modified the procedure to create remarks in PA Remarks Table.	Army LN Italy	Mass Awards
Remedy 14960	Summary: 001 Cancellation (LN Japan) did not output on Requests. Resolution: Removed code that blocked the Japan report from printing when NOA = 001.	LN Japan	NPA/50

Remedy 15089	Summary: Incorrect print on the LN Germany NPA (AE Form 690-60B). Resolution: Increased length of variable used to store place of birth (from 20 to 100 characters). Fixed code to retrieve correct data items for blocks 6, 8, 11 and 19 when RPA is correction (002).	Army LN Germany	NPA/50
Remedy 15124	Summary: Navigation Buttons missing on People screen for LN Supervisor. Resolution: A script has been created that will correct the problem with the following responsibilities and any other secure views built on them. LN Supervisor LN Supervisor - Azores LN Supervisor - Cuba LN Supervisor - Germany LN Supervisor - Belgium LN Supervisor - Iceland LN Supervisor - Japan LN Supervisor - United Kingdom LN Supervisor - Turkey LN Supervisor - Korea LN Supervisor - Italy LN Supervisor - Saudi Arabia	Army LN All	Roles and Responsibilities
Remedy 15140	Summary: Germany Work Schedule (781) doesn't flow data correctly to Assignment. Resolution: Updated Part Time hours in Assignment Extra Info when Change in Work Schedule (781A) is processed.	Army LN All	RPA/52
Remedy 15247	Summary: LN action displays error msg. requiring input of U.S. data fields. Resolution: Modified the procedure check to obtain the correct process methods. Application will not look for APPR required items after this change.	Army LN Germany	RPA/52
CRT 03-9877-NVY	Summary: NVY-236 Remove Invalid Edit for NV Icelandic Local National Employees. Modified the package to bypass the QSI (Quality Step Increase) edit for Iceland Local Nationals.	Navy LN Iceland	Other
Demonstration Project Only			
Remedy 14766	Summary: China Lake Demo mass payout routine doesn't send 891 NPA to printer. Resolution: Added Code to Enable the Printer Flag, retrieve printer name and passing the values to Update SF52 Note: 15005 corrected this problem also.	Navy	Other Mass Actions

Remedy 14857	<p>Summary: Erroneous rating of record level after Mass appraisals.</p> <p>Resolution: Input file had date formats with two-character year where the code was expecting a four-character year for date conversion. The Year was getting converted to '0003' instead of '2003'. Modified the code to handle different date formats fetched from the input flat file.</p>	Navy Demo	Appraisals
Remedy 14984	<p>Summary: CL-US Fed Agency Data did not auto populate.</p> <p>Resolution: Modified code to populate agency specific data for L889 while doing a manual RPA.</p>	Navy Demo	Awards
Remedy 15005	<p>Summary: China Lake Mass Payout Failed.</p> <p>Resolution: Added Code to Enable the Printer Flag, retrieve printer name and passing the same values to Update Sf52 call.</p>	Navy Demo	Other Mass Actions
Remedy 15305	<p>Summary: Received incorrect decision message when processing RPA and updating HR on acquisition employee actions.</p> <p>Resolution: Decision message changed to reflect an OK button rather than a YES/NO decision. Also included in the fix for TD9440.</p>	AF	RPA/52
Remedy 15308	<p>Summary: Lab Demo Retention Allowance Employees with Broadband Move.</p> <p>Resolution: Modified packages to prevent records getting routed to inbox for individuals who have retention allowance and to re-calculate the retention allowance based on their new basic salary for NRL Demo</p>	AF	Mass Pay Demo
CRT-03-8985-ARM	<p>Summary: Correct the Appraisal data in DCPDS for Army Lab records. A script has been created that will reset incorrect values for Rating of Record Levels in the Appr - Army Lab Demo and US Fed Performance Appraisal SITs. These values were inserted incorrectly during the Mass Appraisal update process. Rewrote the procedure to manually update SITs to avoid server side validation errors caused by old data.</p>	Army	Lab Demo
Oracle Patches			

Oracle Patch 2999489	Summary: Provides the ability to change the name of an existing POA, save, leave the screen, return & query to see if the new name stayed put. If the new name is available when you query, this patch worked. You don't have to worry about the POA being assigned to positions in the system - the name should get updated to the positions based on your change. If you prefer, create a new POA, save, leave the screen, return & change the name of the new POA.	Oracle	Organization
